

Building a new metaverse NFT aggregation platform that
connects different people around the world

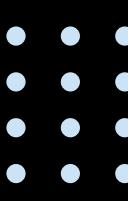

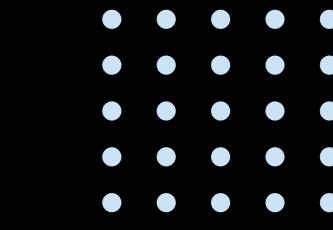

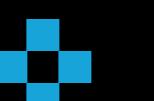

GameFi

GAMEFI INDUSTRY ANALYSIS

GameFi is bound to be a potential industry that will continue to receive attention and continue to develop in the future. Under the boom of the general trend, our entire team will also try to create a set of GameFi financial models belonging to our users in this field at different stages of the industry's development., in order to have more stable profit and loss rules and economic structure.

With the balance between entertainment and wealth, the development of the industry is bound to face some challenges, and the progress of the project is not smooth. Creating higher-quality blockchain games will be the unanimous pursuit of our entire team.

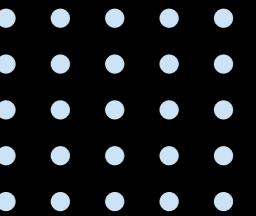

NFT

NFT MARKET OPPORTUNITIES AND POTENTIAL GROWTH

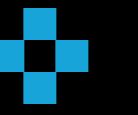

The non-fungible digital asset NFT market tripled in 2020, with the total transaction value increasing by 299% year-on-year to more than \$250 million. According to a report examining the NFT market, NFTs are expected to become the leading emerging asset class in the virtual economy in the coming years, both in terms of their financial value and practical use, and as a major driver of virtual economic activity in the world. They cannot be replicated due to their unique properties, and they can bridge the gap between virtual and real economies, providing a vast marketplace of scalable, collectible, and tradable valuable digital goods.

The total value of all NFT transactions (including sales and all other transactions such as “breeding,” “minting,” and renting) increased from \$62,862,687 in 2019 to \$250,846,205 in 2020. The number of buyers and sellers increased from 44,644 to 74,529 (+66%) and 25,264 to 31,504 (+24%), respectively.

Background

KAKA WARCRAFT BIRTH BACKGROUND

KAKA Warcraft is the next generation of decentralized NFTs for all types of markets to meet the needs of the growing number of digital artists, creators and collectors. KAKA Warcraft (represented by NFT tokens) wants to be the first truly community-run marketplace and believes the diversity will make it a quirky and truly unique project in the world. Through KAKA Warcraft's marketplace, the plan is to provide a way for artists to earn income through non-fungible tokens (NFTs) without paying large commissions and relying on middlemen.

Idea

KAKA WARCRAFT DEVELOPMENT CONCEPT

THE FIRST PART

We are very confident in its playability and have received support from many players.

THE SECOND PART

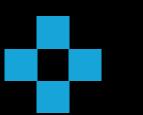

In the future, we will continue to announce all the development progress and details related to KAKA Warcraft, and strive to accumulate a stable customer base in the industry and establish a good reputation.

THE THIRD PART

Making money is important, but fun is more important. We hope that players can get corresponding rewards while having fun in the KAKA Warcraft game.

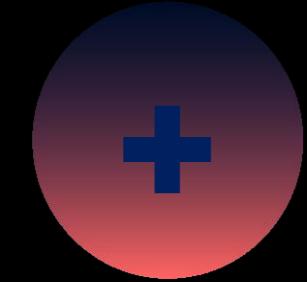

Mission

KAKA WARCRAFT MISSION

CREATE A PLATFORM

KAKA Warcraft's mission is not just to create a game where players can play, trade and earn money, but to build a platform game that connects cryptocurrency owners with players and artists.

HELP LOW-INCOME PEOPLE

With the rise of the "Play-to-Earn" movement in the gaming industry, the definition of gaming has changed: Play-to-Earn games no longer drive players to spend money, but instead provide a chance to make money for a large number of low-income people.

Build the Metaverse

For the long-term mission, we hope to build a new metaverse NFT aggregation platform to connect different people around the world.

PLATFORM INTRODUCTION

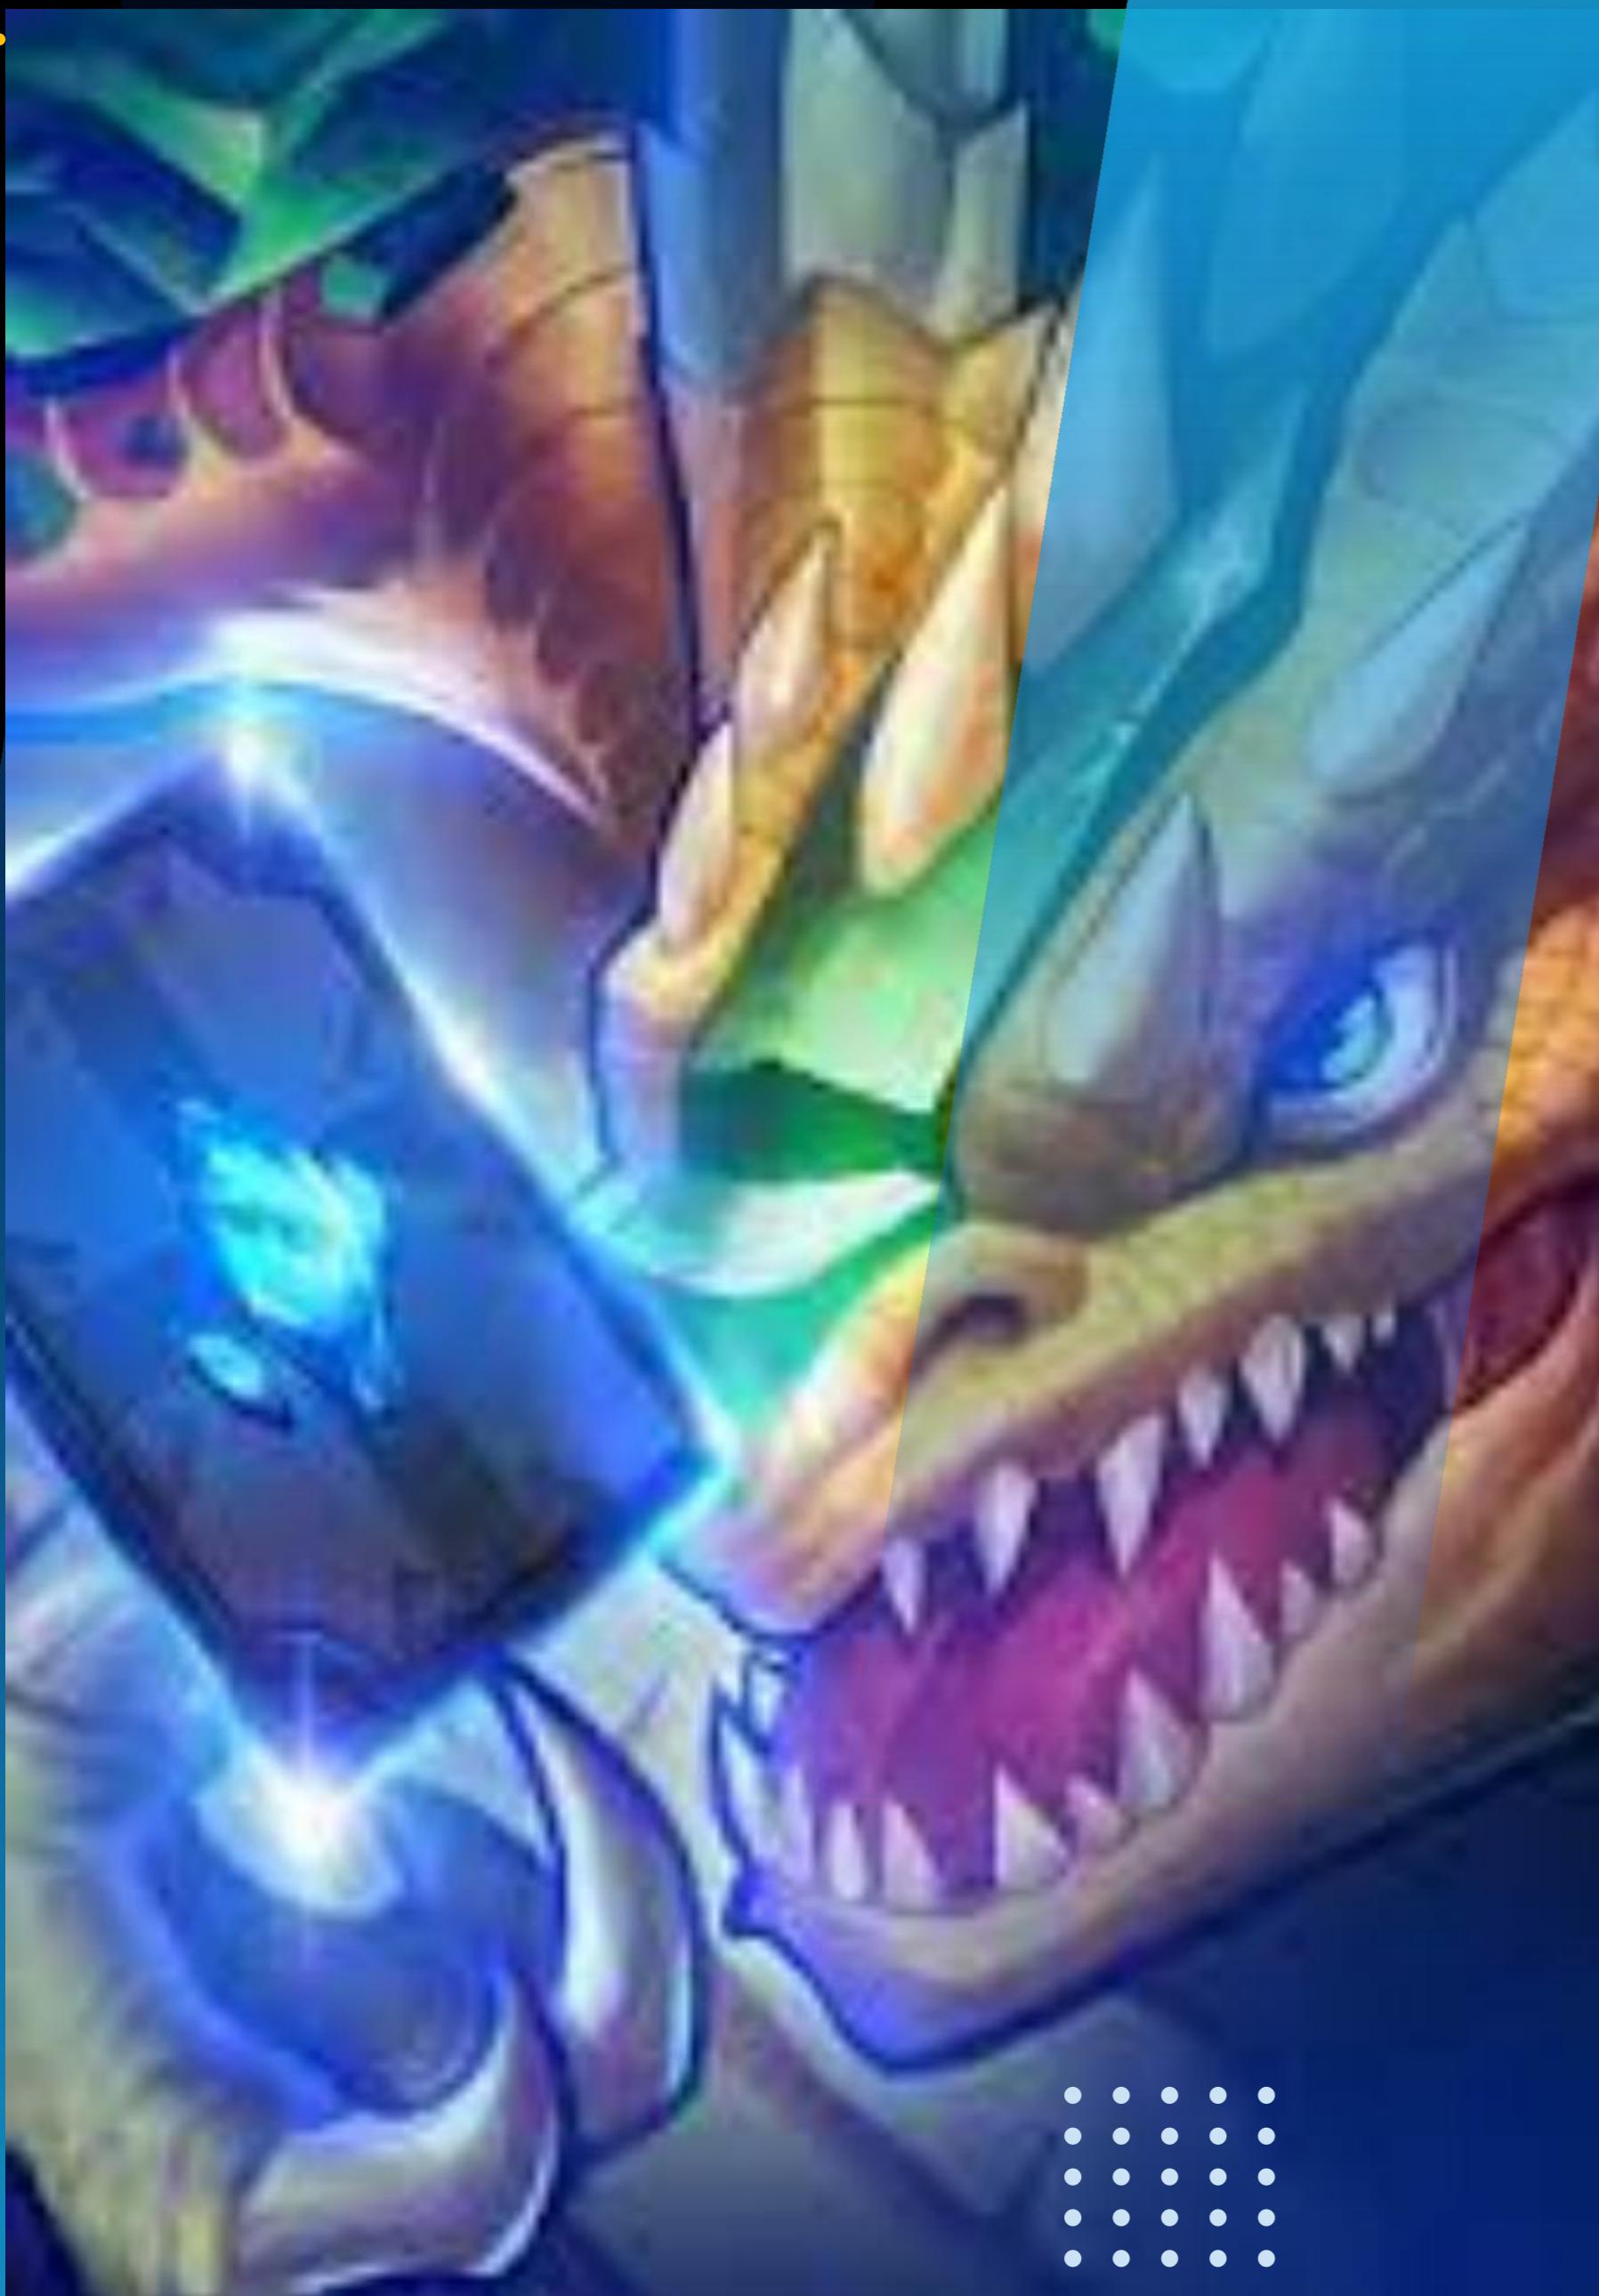

1. KAKA Warcraft is a fast-paced strategy card game, an NFT-Gamefi ecological card game, enjoy challenging and innovative gameplay, simple mechanics, 6 types of Warcraft cards.

2. The main function of KAKA Warcraft is to duel with other players. It has a built-in Play-to-Earn ecological financial model, and has a series of card play-to-earn events and activities such as mysterious cards, major events, and e-sports seasons.

3. We will establish a player DAO, hand over part of the decision-making power of game development to the community, and will launch a revenue-generating system in the future, so that players and game creators in the community can receive corresponding considerable rewards.

4. KAKA Warcraft is a metaverse NTF transaction aggregation platform, with the advancement of blockchain technology and smart contracts increasing the possibility of realization through cryptocurrencies and NFTs. KAKA Warcraft through its product suite can create a healthy ecosystem for real buyers and sellers of artwork and other creative digital assets in the near future.

KAKA WARCRAFT FEATURES

KAKA Warcraft is a "Play 2 Earn" strategy card game based on blockchain technology

- 01 **Duel with other players**
- 02 **Play earning mode**
- 03 **Mystery card**
- 04 **Special event**
- 05 **eSports season**
- 06 **Create Money & Player DAO**

KAKA WARCRAFT TOKEN INTRODUCTION

KAKA GOVERNANCE TOKEN

KAKA Warcraft's ecosystem and economic system use KAKA as a governance token, and constantly create real player needs in this economic system, so that the economic system can run smoothly.

KAKA WARCRAFT

KAKA: PLATFORM GOVERNANCE TOKEN

Total circulation: 1,100,000 (online Quick SWAP)

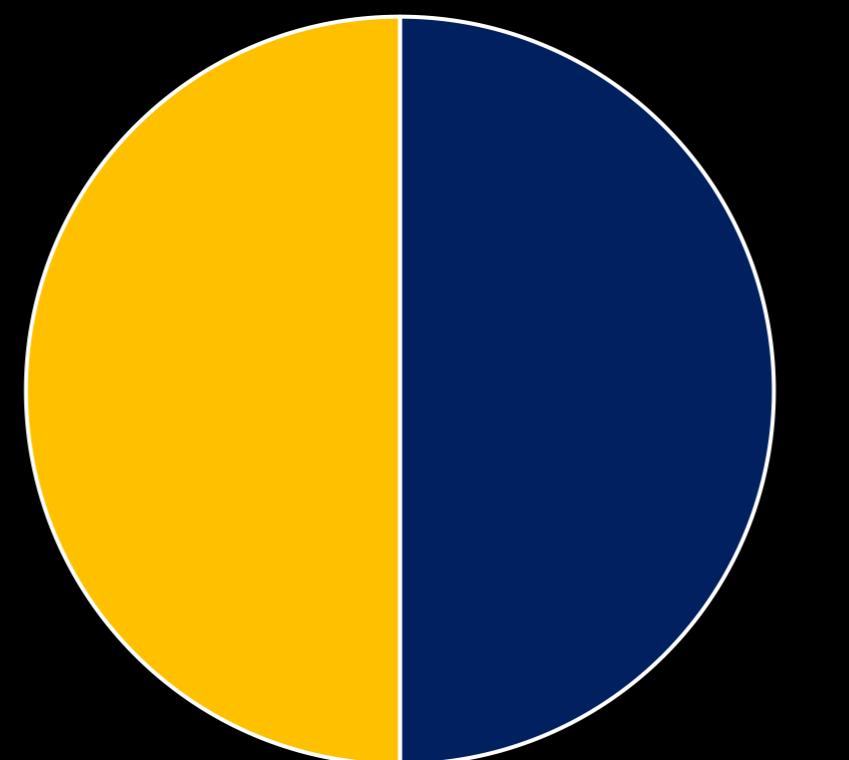

20000 Enter the pot

1080000 Contract

Produce 1000 pieces per day, enter the DAO ecological energy exchange, and all KAKA balances that have not been exchanged within 24 hours of the day will be destroyed; after 540 days, 500 pieces will be produced per day

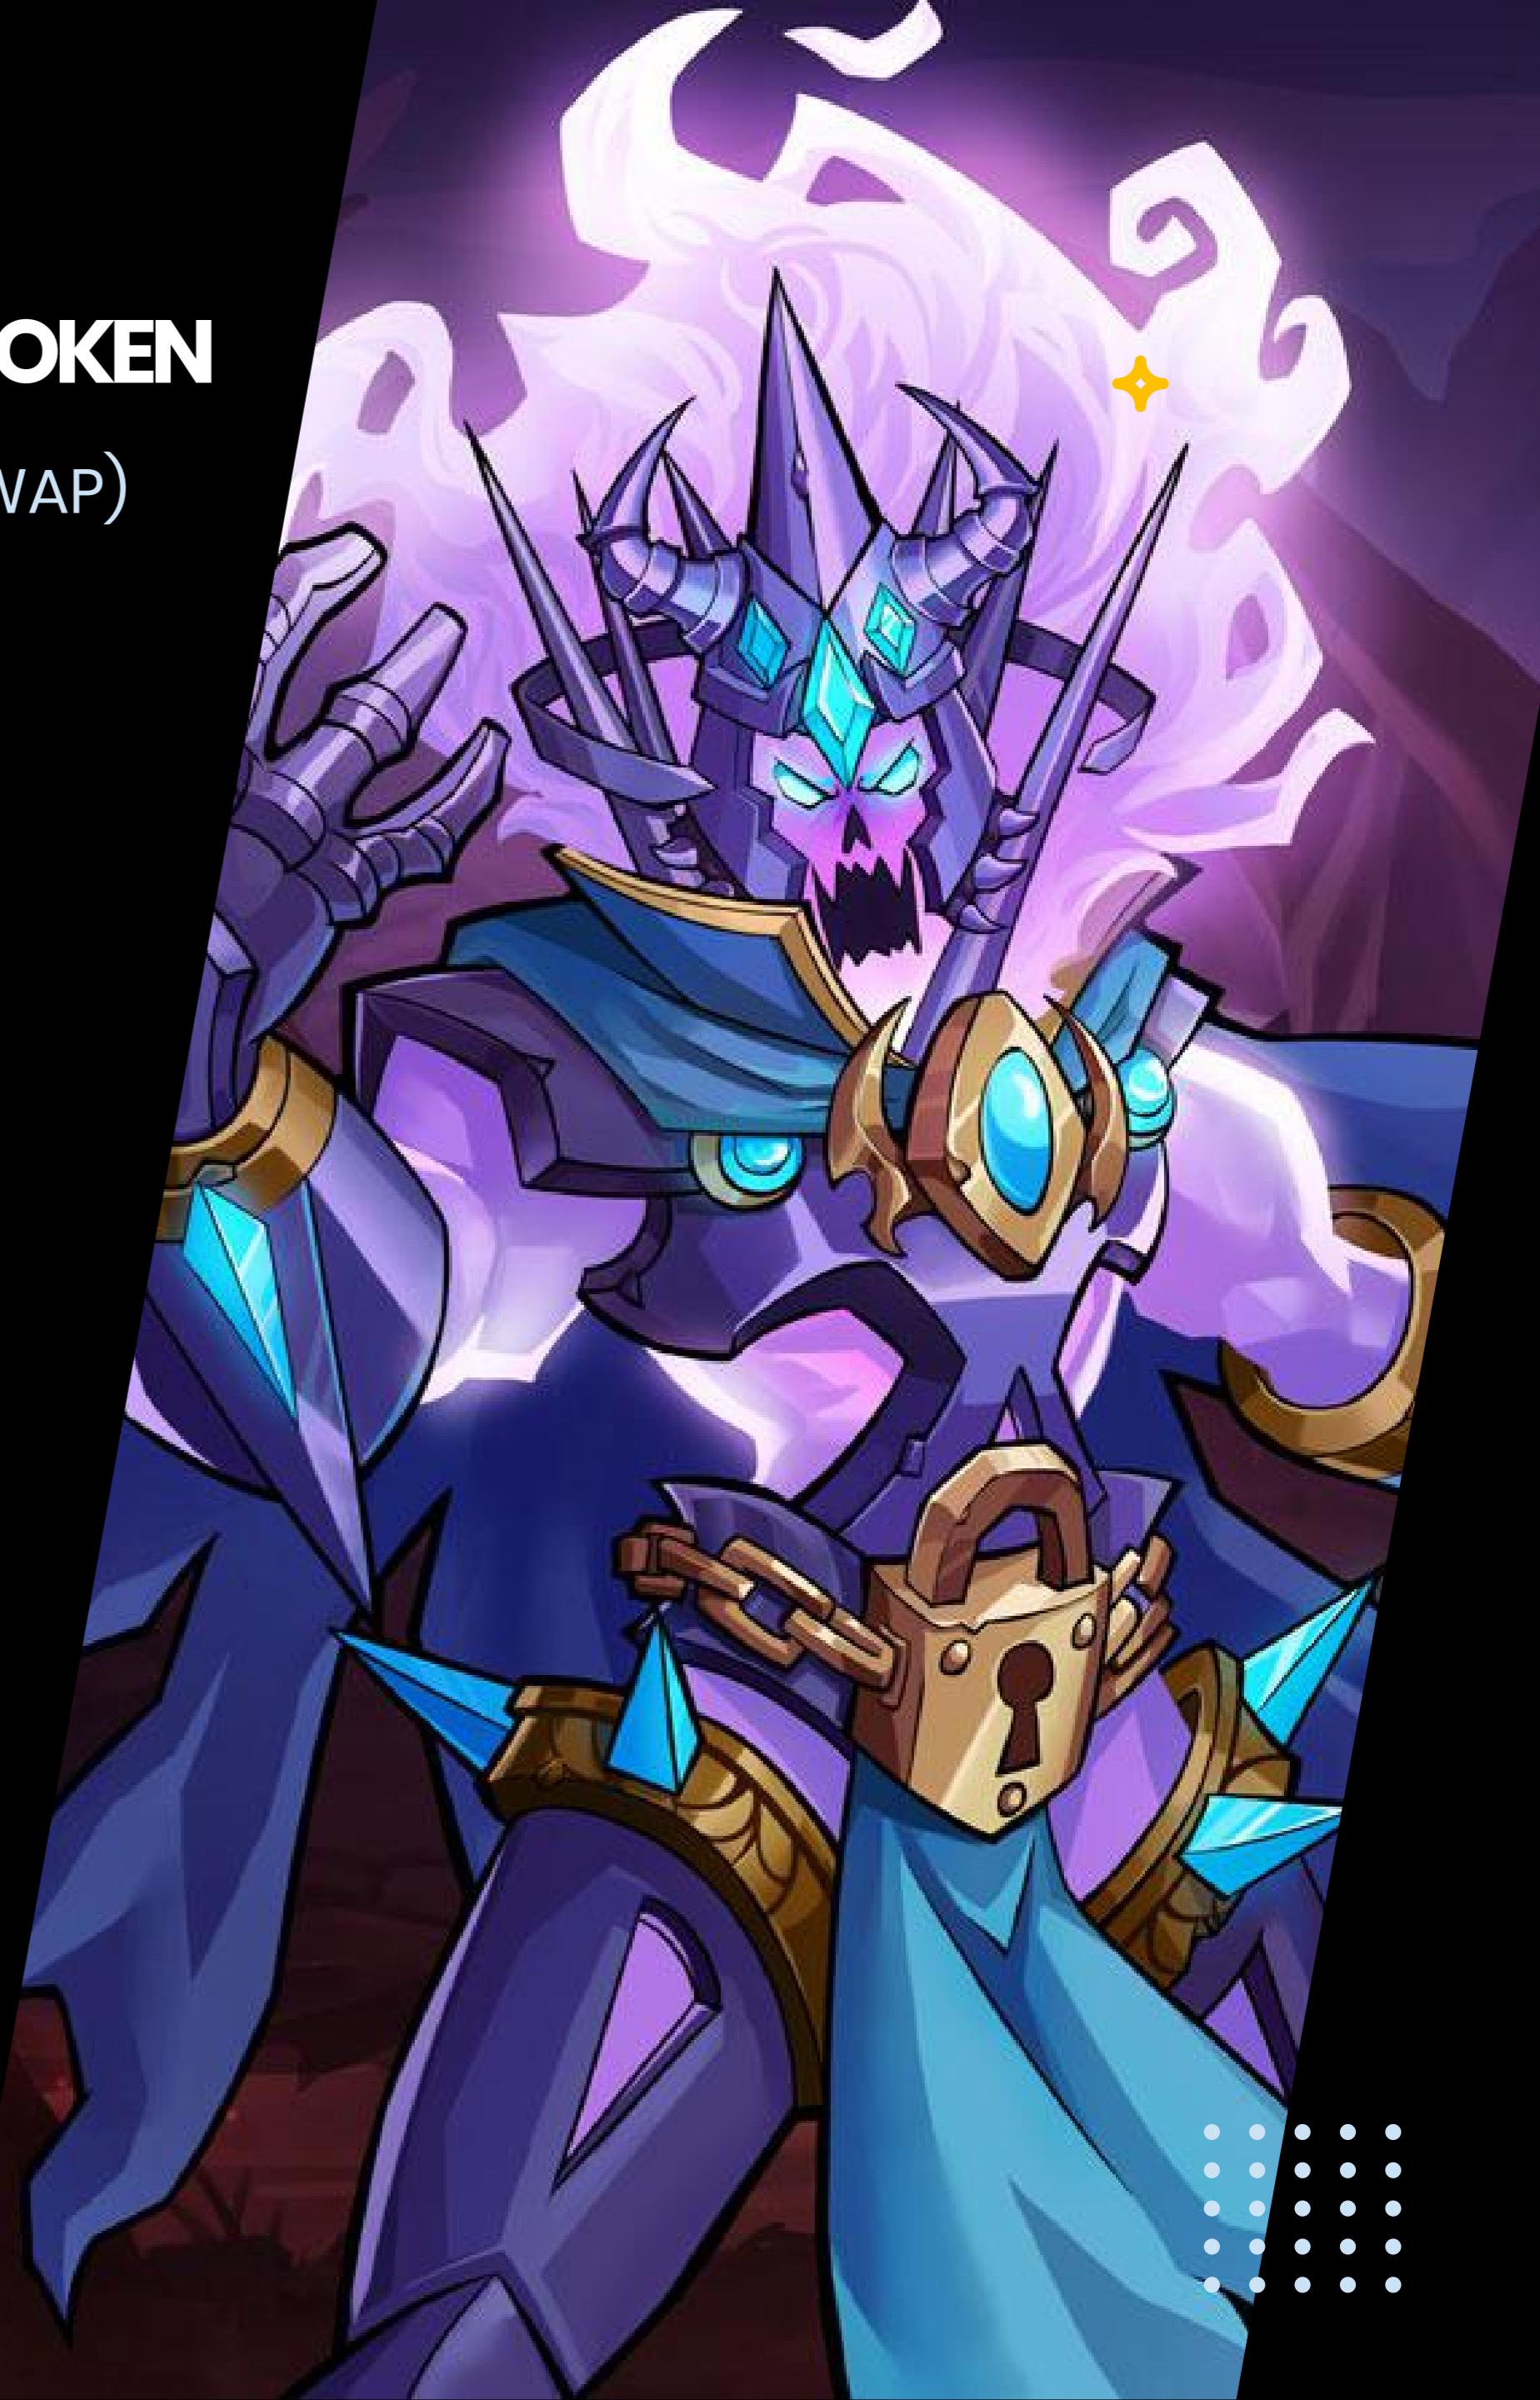

SWAP Transaction

6 TYPES OF NFT CARDS

Participating in NFT card games requires USDT purchase, and accounts can be stacked with multiple orders to participate

01

Orgrim NFT Card

The lieutenant of Blackhand (Blackhand), the leader of the Blackrock clan, and a childhood friend of Durotan of the Frostwolf clan. Later, when Blackhand became the chieftain of the tribe and led an expedition to the world of Azeroth, he accompanied the army to Azeroth.

02

Garona NFT card

She is a legend in the world of Azeroth, and she can be called the person who turned the wheel of history.

03

Gul'dan NFT card

He works to spread his power and that of the Burning Legion to countless worlds in the universe.

04

Khadgar NFT Card

Archmage, one of the five heroes of the Dark Portal, a member of the Son of Lothar, the only apprentice of the astral mage Medivh, and the eternal guardian of Watch Castle.

05

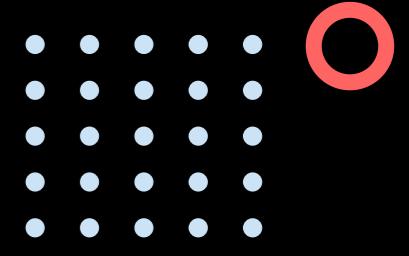

Durotan NFT card

Durotan is the chieftain of the Frostwolf clan and the son of Garad (Galada). Durotan, the third oldest, is the most supportive of family and tradition among the three brothers.

06

Medivh NFT Card

An avatar that means "secret-keeper" in High Elvish.

KAKA WARCRAFT NFT MINTING

Adventure:

The number of KAKA rewards players receive in each battle depends on the level of the hero you belong to.

The first phase will be limited to 6 different forms of hero forms

hero form energy

Orgrim 0.5 energy gain per day

Garona 1 energy gain per day

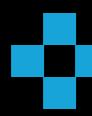

Gul'dan 2 energy gains per day

Khadgar 6 daily energy gains

Durotan 14 Energy Gains per day

Medivh 30 Daily Energy Gains

The energy value produced every day will be automatically entered into the DAO ecological energy exchange according to the real-time value of KAKA. The remaining KAKA that has not been exchanged within 24 hours of the day will be destroyed. The daily exchange limit of KAKA is 1,000 pieces; 500 pieces will be produced every day after 540 days.

GAMEPLAY

CONTRACT ALLOCATION

- ◆ **20%** Directly push one to get one generation, and so on to 10th generation, 2% from 1 to 10th generation
- ◆ **30%** Of the vault contract, when the vault reaches 500,000 U, the automatic pull mechanism will be activated
- ◆ **40%** Automatically enter the contract, buy real-time price KAKA and destroy
- ◆ **5%** Of the world's top 100 community building
- ◆ **5%** Add LP ranking bonus

GAMEPLAY

CONTRACT ALLOCATION

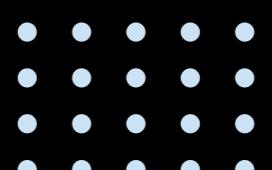

Maintain market value

500000U	1000000U	2000000U	4000000U	10000000+ 5%
30%	20%	15%	10%	

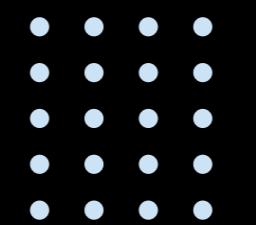

LP ranking dividend distribution

No. 1-7	No. 8-14	No. 15-21
50% weighted average	30% weighted average	20% weighted average

GAMEPLAY

ENERGY TEAM AWARD KKE (KAKA ENERGY)

Push one directly to get one generation, and so on to 30 generations

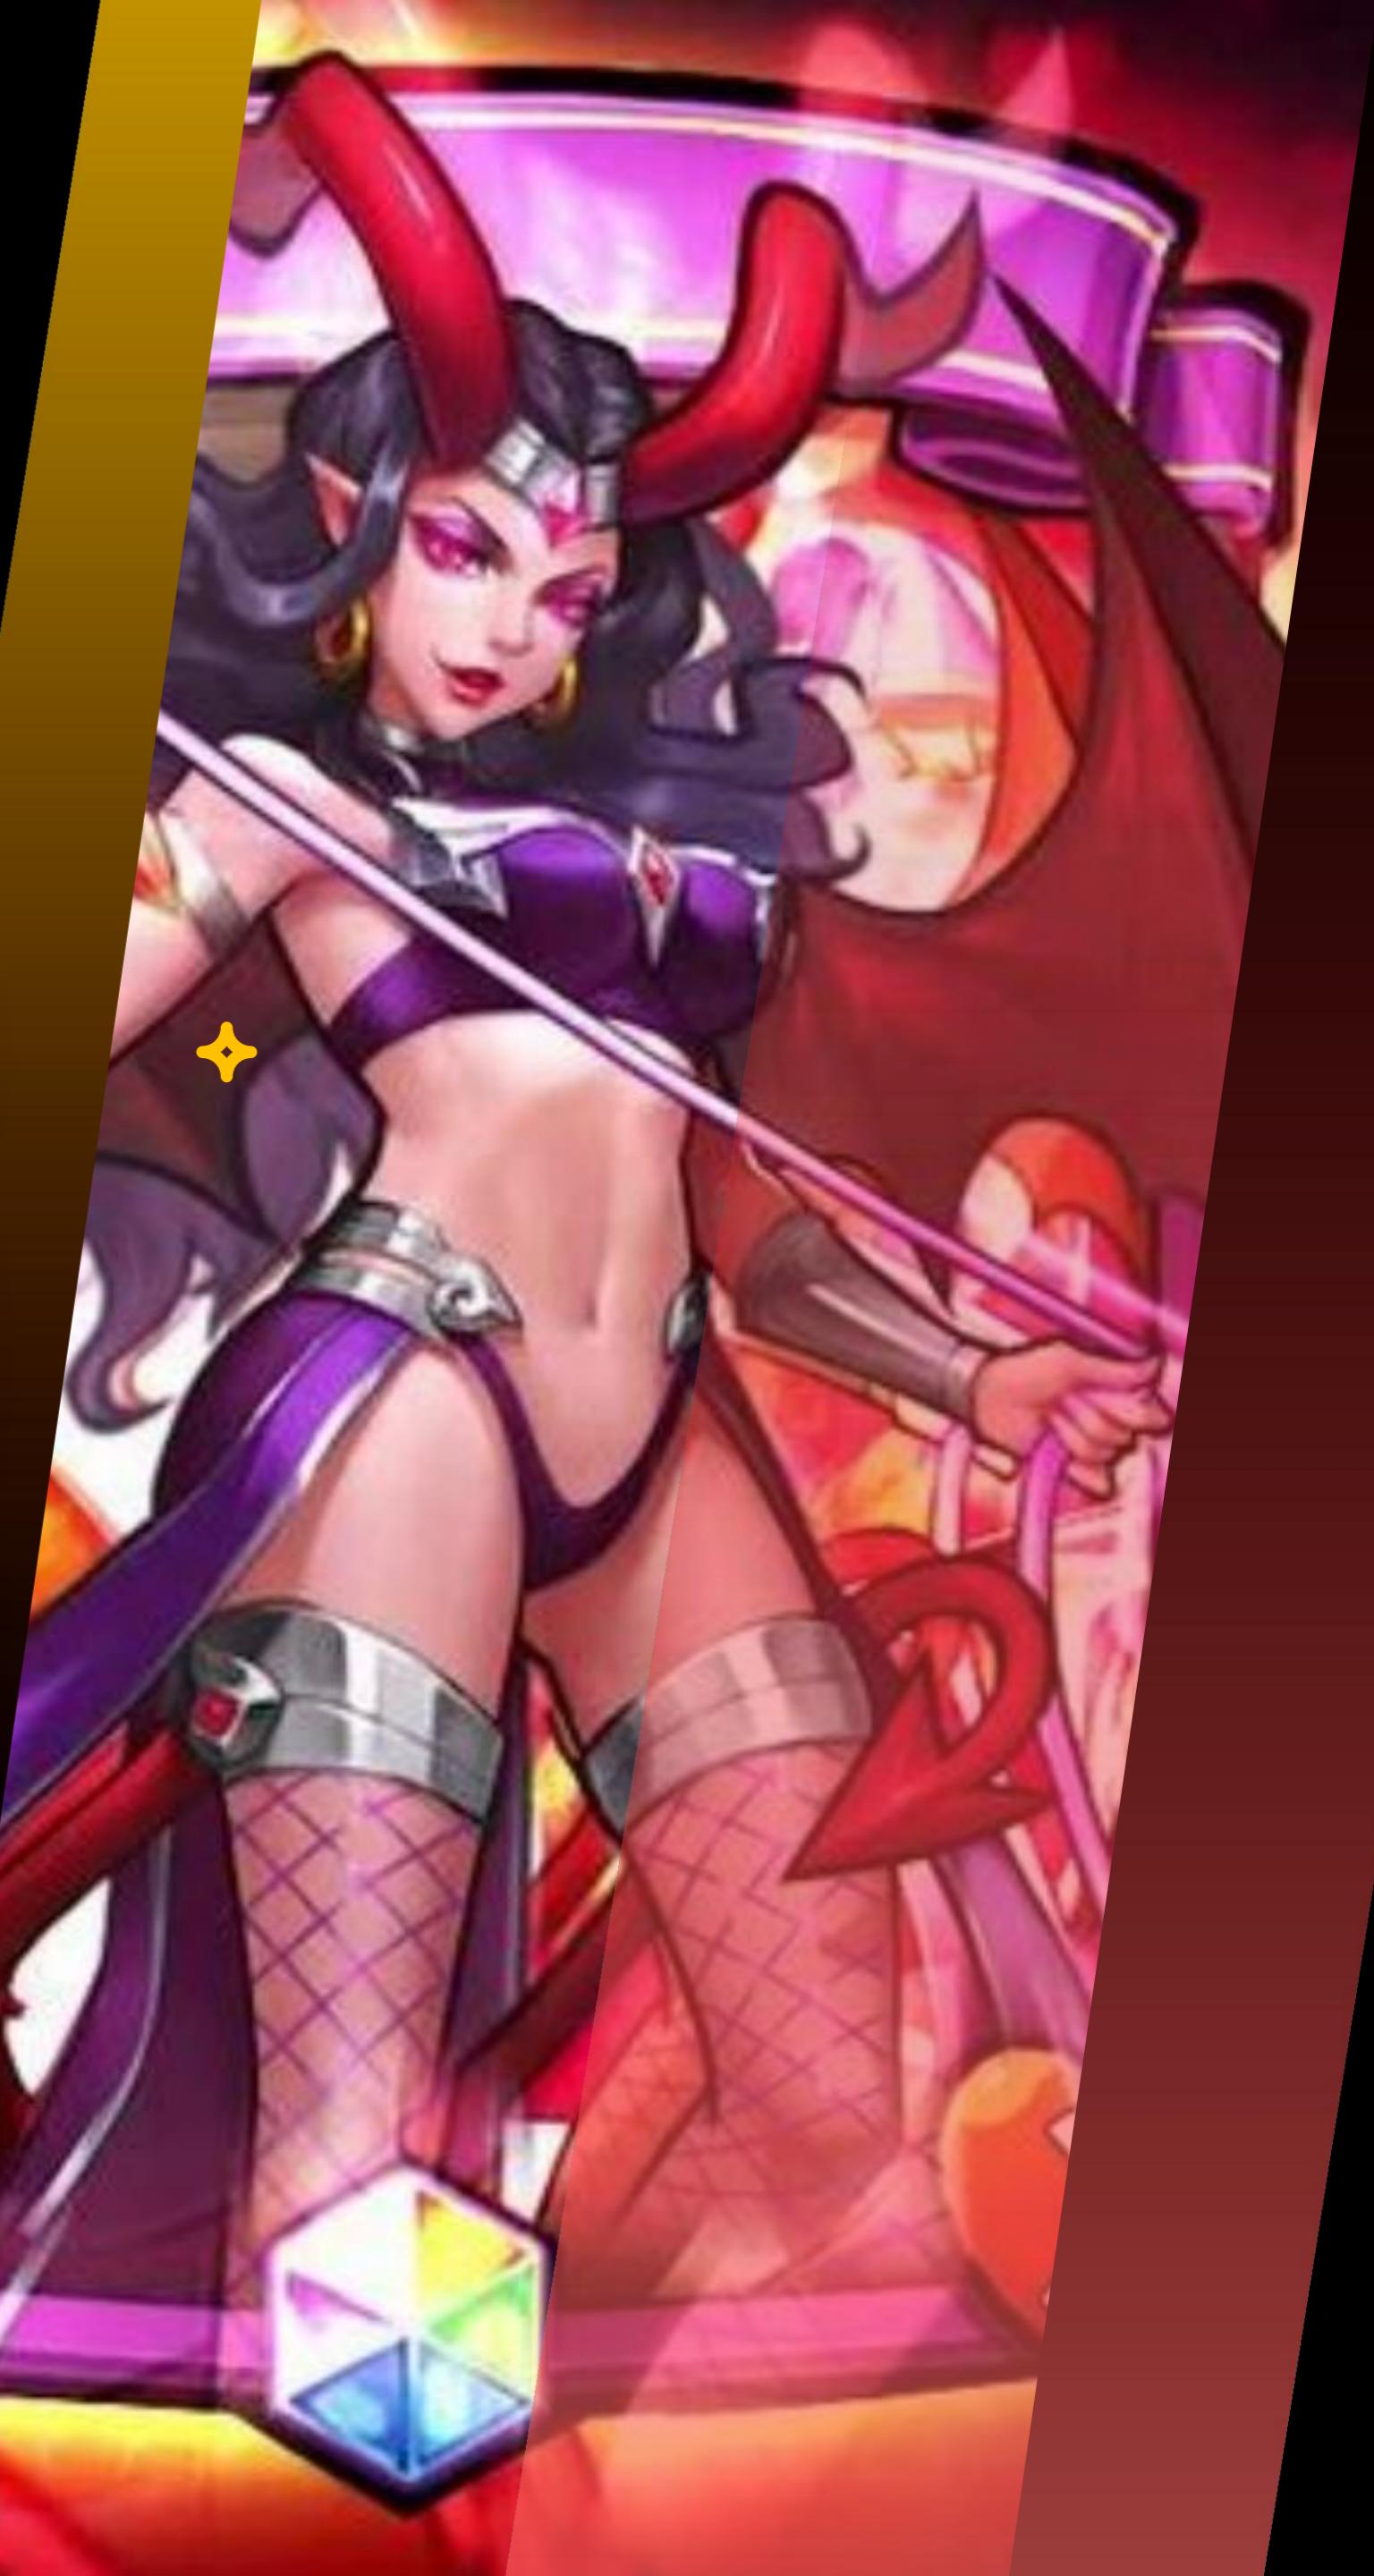

1st generation	2nd generation	3 generations	4-10 generations	10-20 generations	20-30 generations
10%	8%	6%	3%	1.5	1%

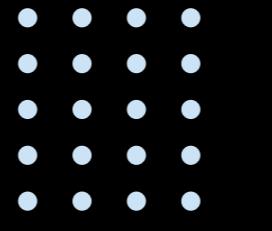

KAKA APPLICATION VALUE

1. Participate in the ecological governance of the KAKA Warcraft protocol.
2. Purchase scarce resources in the Card Warcraft series games and gain important roles in the platform community.
3. Create user player DAO governance and revenue.
4. Participate in the subsequent development of KAKA Warcraft related unions, alliances, communities, liquidity pools and other related development and bonuses.
5. KAKA tokens not only have the function of recovering value, but also allow more holders to participate in the game governance of the KAKA Warcraft ecosystem.

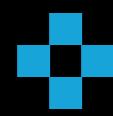

GAMEPLAY

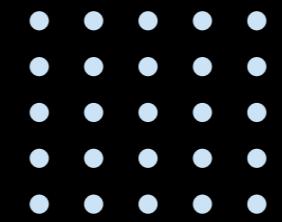

RANKING

1. Overview: Ranking is a system where players are ranked according to the points they have earned in a match, it provides a classification of matches.
2. How to level up: Players will level up when they reach a certain number.
3. Automatic Rank Reset: Players' rank will be reset at the start of a new season to give higher-ranked players more incentive to continue ranking at the start of the new season, while lower-ranked players have a chance to gain a higher rank.
4. Rank Rewards: The process of ranking up helps players earn many valuable rewards, such as \$KAKA...

GAMEPLAY

LEADERBOARD

1. Overview: Leaderboards are a system that ranks players in a game based on their achievements. Leaderboards help increase competitiveness among players and create exciting challenges that force them to work hard to overcome.

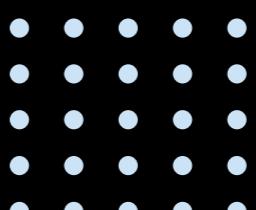

2. Ranking list:

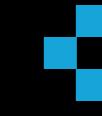

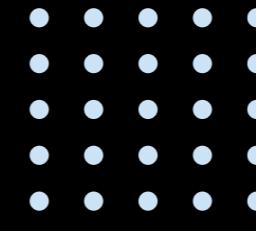

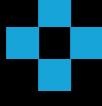

Victory Leaderboard Victory Leaderboard Ranks players based on the number of wins. Streak Leaderboard: Ranks players based on the number of consecutive wins.

Mystery Leaderboard Mystery Leaderboards Rank players based on the number of Mystery Cards they have.

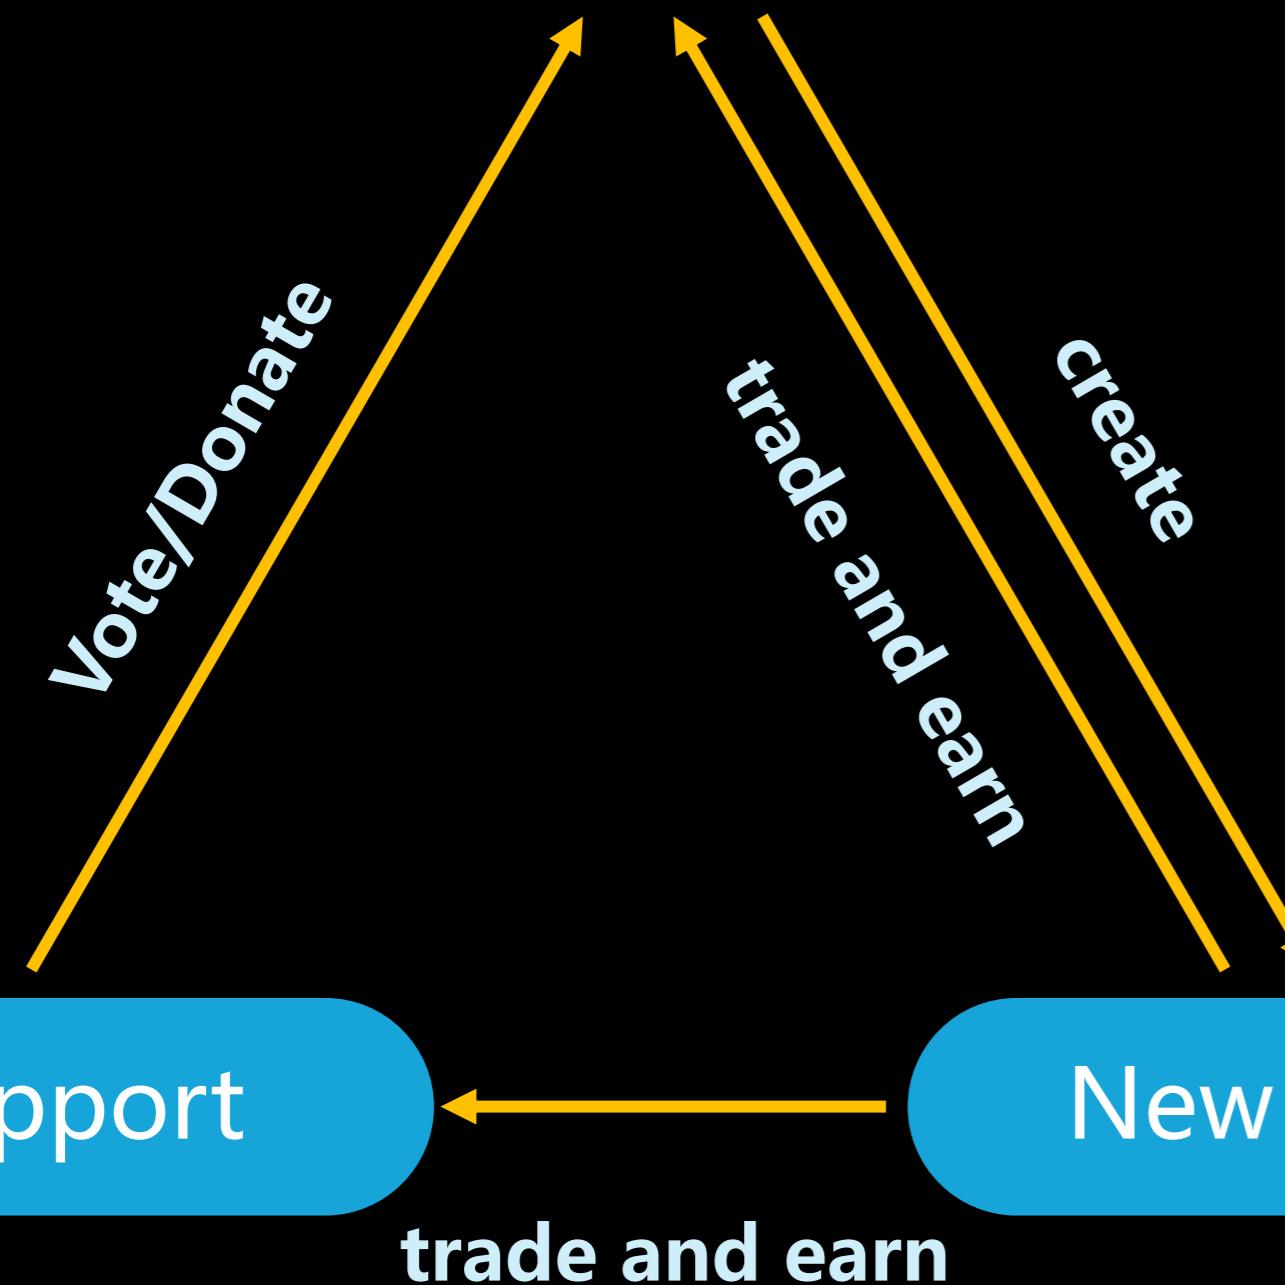

MVP Leaderboard MVP Leaderboard Ranks players based on the number of MVPs earned in a game.

3. Leaderboard reset: The leaderboard will reset at the start of a new season, with the goal of evenly splitting the chances of new and old players competing for the top ranks.

Artist/player

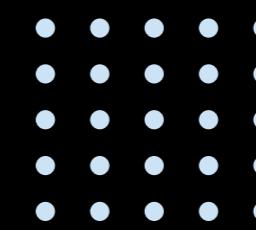

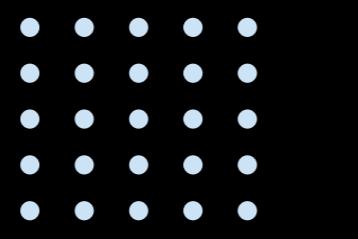

GAMEPLAY

CREATE TO EARN AND PLAYER DAO'S

1. Player DAO is a very important part of KAKA Warcraft system.
2. Some of the new cards listed in the game will be designed by players themselves.
3. Once player-designed cards are released in-game, both designers and backers can earn rewards from them.

Each card is an NFT so it can be traded on the market

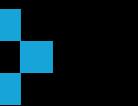

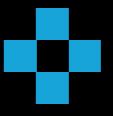

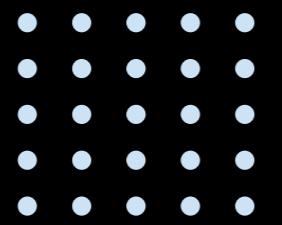

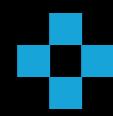

ECONOMICS

ECONOMIC MODEL PLAY AND EARN

1. Arena: At the end of each season, players will be rewarded for each victory in the arena, and the highest top players will be rewarded with bonuses.
2. Quests: Players need to complete daily quests to receive rewards.
3. Special Events: Each season has special events for players to participate in and win.

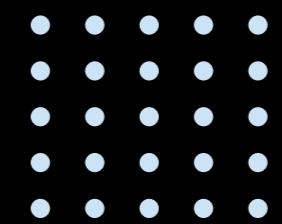

KAKA Warcraft

ECOLOGICAL PLANNING

Our technical team has professional technical development capabilities in the field of large-scale game development and operation. It is expected to develop 5 KAKA Warcraft series card games to form a series of Warcraft metaverse.

- 1) The first GameFi ecological game will be launched. Before the launch, 6 kinds of non-homogeneous digital asset NFT cards will be released and the official website will be launched.
- 2) The second game of KAKA Warcraft will be themed on strategic battles. The second game and the first game are closely linked, adding energy to the NFT of the first game.
- 3) The third game of KAKA Warcraft will focus on creating a trade union community bonus mechanism and player bonus pool rewards on the premise of relevant participation elements such as laboratories and battle land.
- 4) The fourth game of KAKA Warcraft will open an integration mechanism, which will integrate a series of game ecology and KAKA tokens to circulate across the board to achieve a fully liberalized DAO ecological governance.
- 5) For the update plan and economic model of the subsequent games, please pay attention to our official website and social networking website in time. Once the relevant review and test are completed, we will announce it as soon as possible.

KAKA WARCRAFT

TIMELINE PLANNING

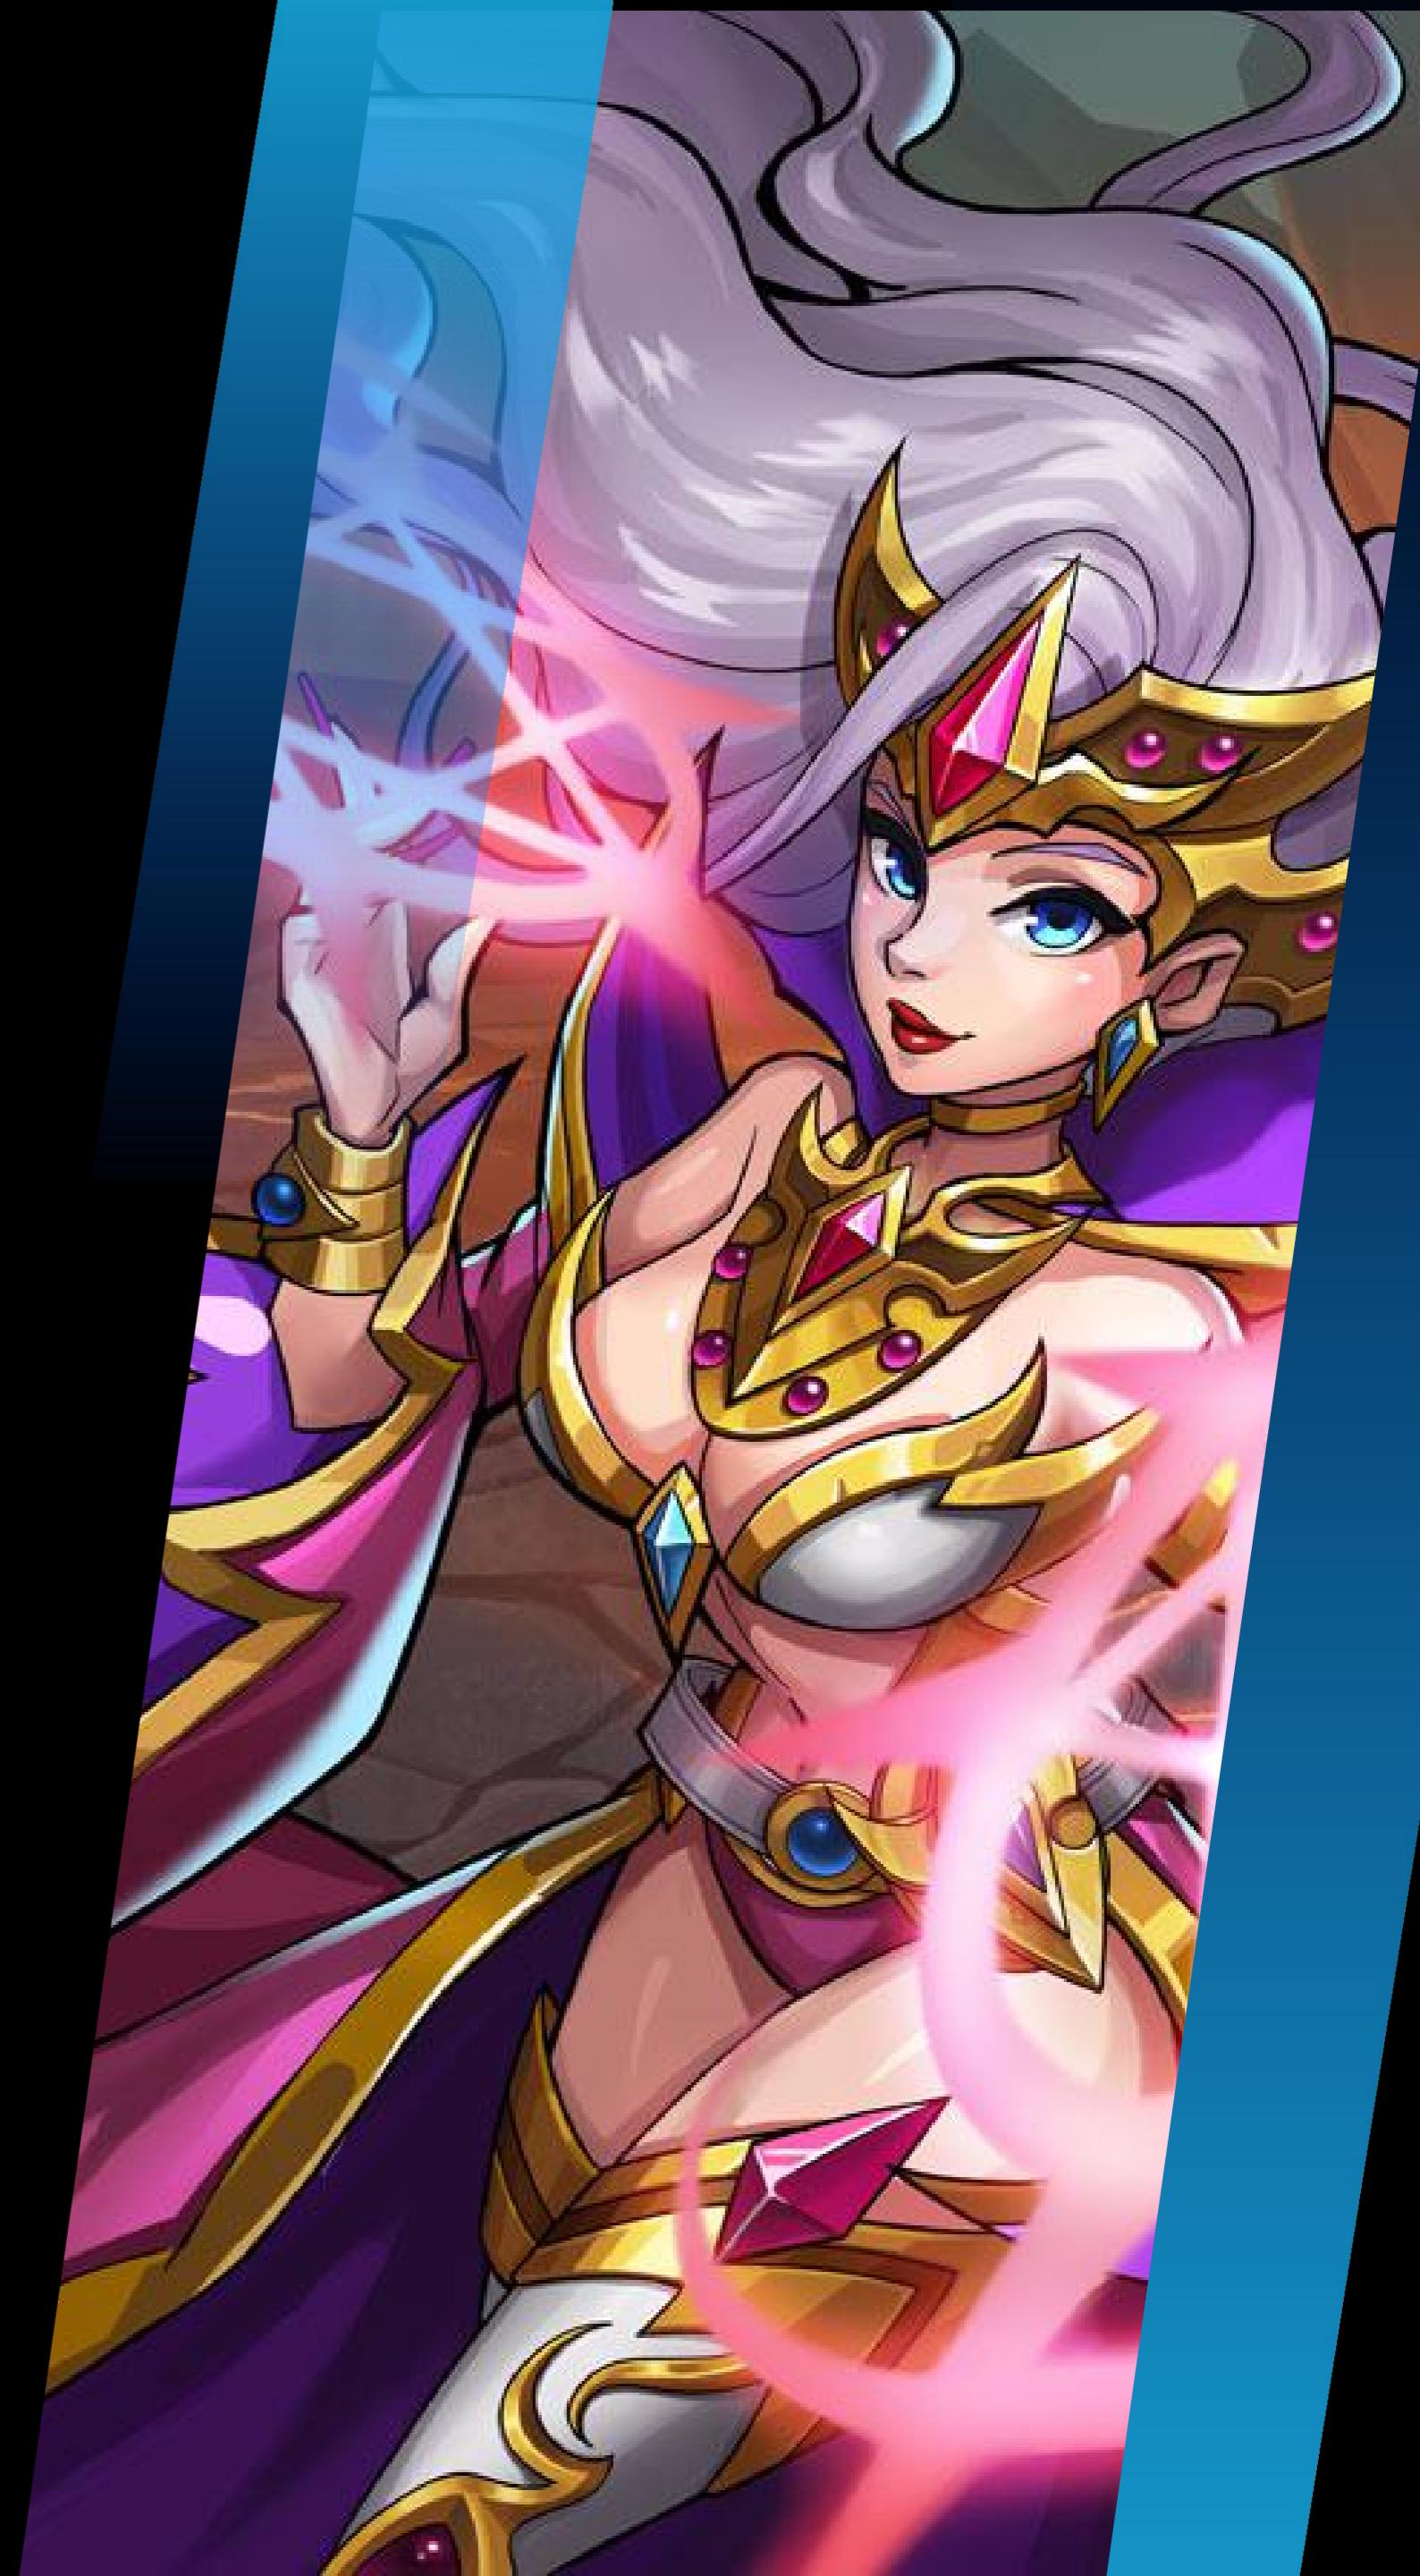

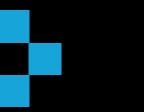

2022 Q1-Q2

- Project preparation period, framework construction
- Official website construction
- White paper drafting

2022 Q3

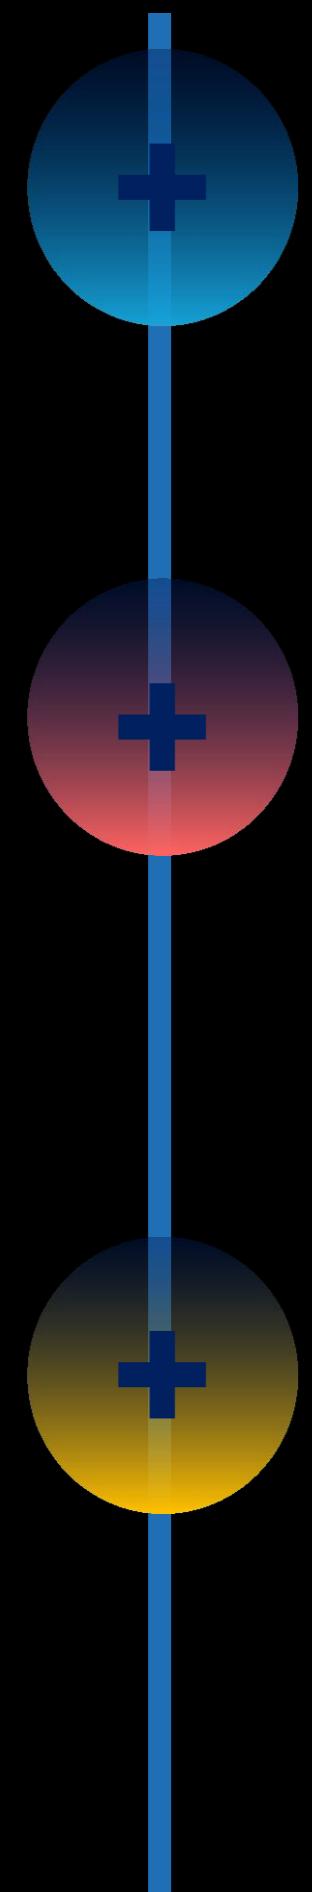

- Website Publishing
- White paper 1.0 released
- DeFi module is online
- KAKA Warcraft NFT is on sale
- KAKA token release
- Launched Swap
- Launched social platform V1.0—Game Guild

KAKA WARCRAFT

TIMELINE PLANNING

2022 Q4

- The first self-operated game is online
- GameFi aggregation platform V1.0 launched
- KAKA Warcraft APP V1.0 released online

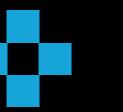

2023 Q1

- NFT Asset Aggregation Protocol V1.0 launched
- Social Platform V1.1—Social system launched
- GameFi aggregation platform V1.1 launched

2023 Q2

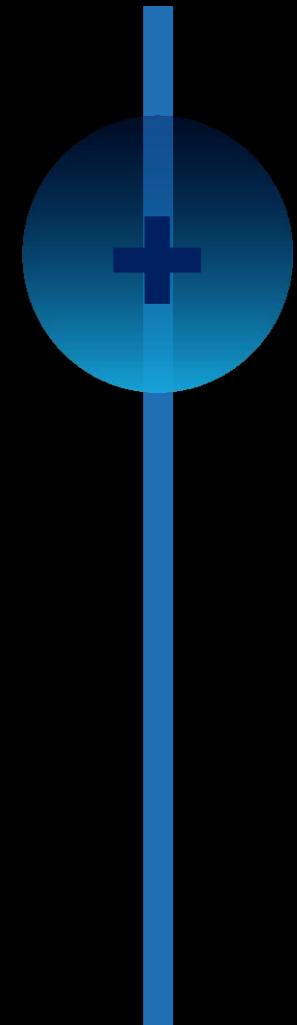

- NFT auction online
- 3D NFT goes live
- The second self-operated game is online
- Online top exchanges

KAKA WARCRAFT

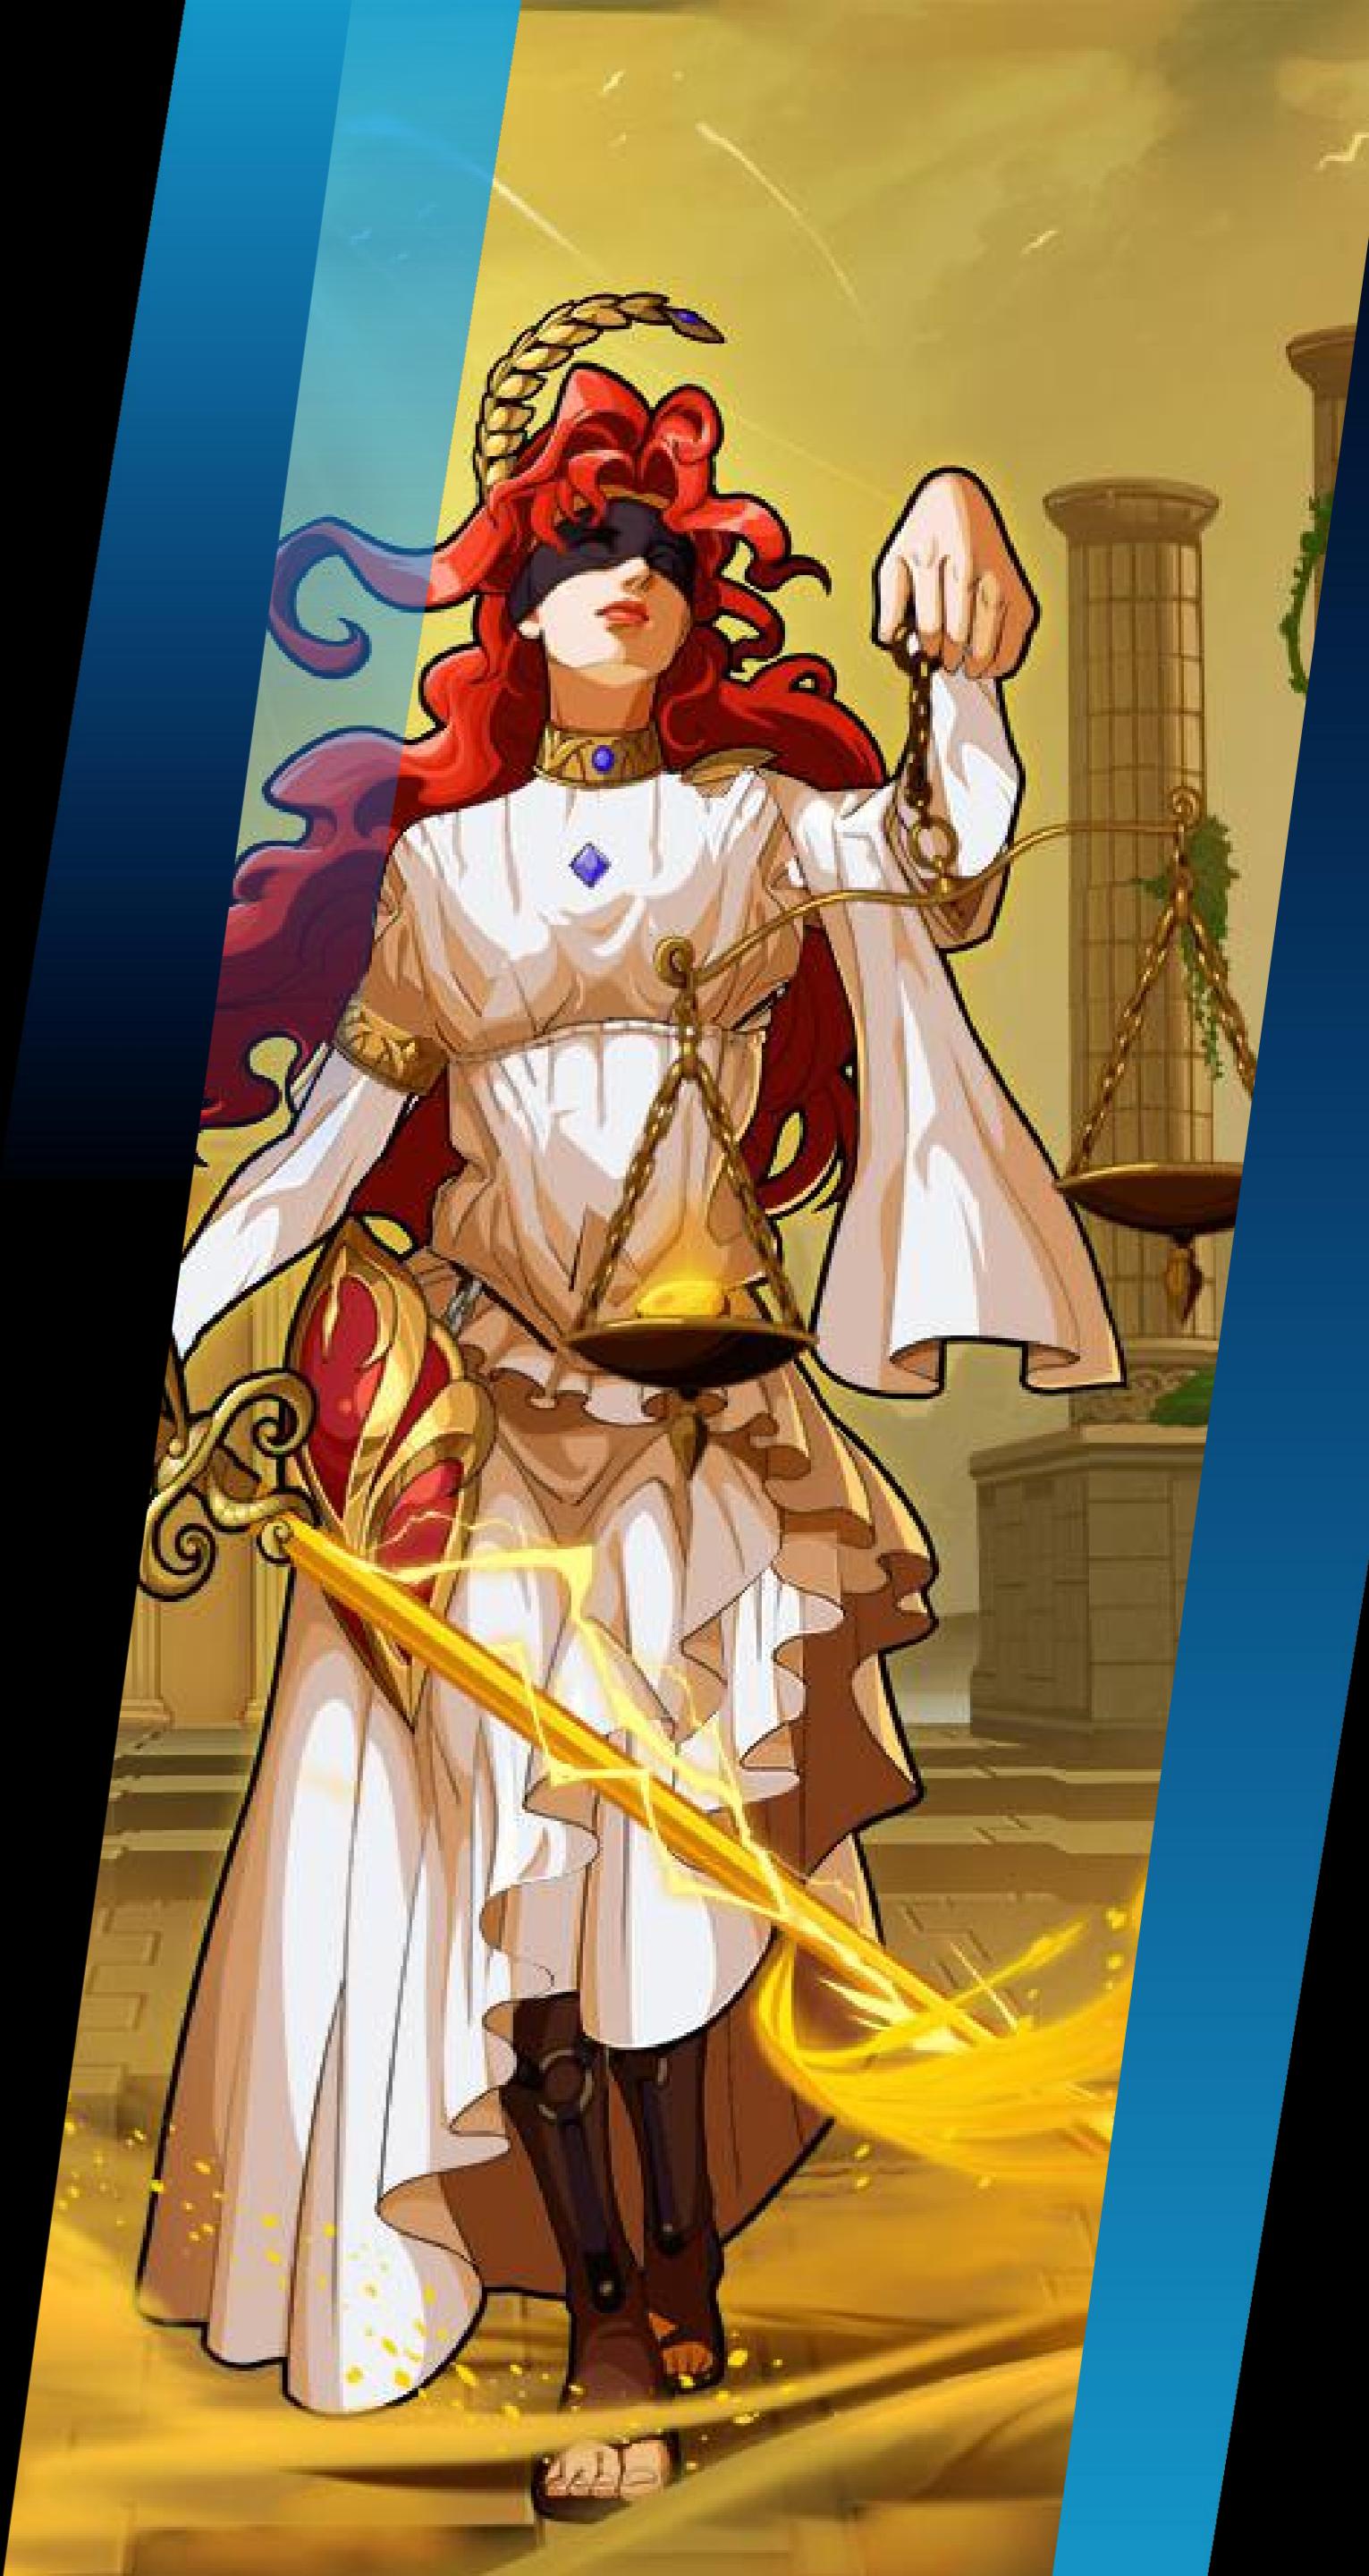

TIMELINE PLANNING

2023 Q3-Q4

- ETH cross-chain implementation (on Uniswap)
- NFT Asset Aggregation Protocol V2.0 launched
- KAKA Warcraft APP V2.0 released online
- Social Platform V2.0—The launch of the social system
- 3D Metaverse Support Special Fund
- The third self-operated game is online

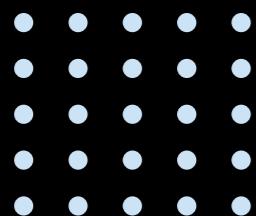

During the period, relevant details will be adjusted and updated, please pay attention to our official website.

Team member introduction

KAKA WARCRAFT

Randy CEO

12 years of experience in the game industry, 3 years of deep cultivation in the blockchain investment industry.

James CTO

R&D director of multiple game projects in Japan and South Korea, introduced a number of popular overseas IPs, and cooperated with Tencent and other companies to issue resumes.

Sancho CMO

4 years of experience in the crypto industry, head of marketing for 2 top exchanges.

Sam Game director

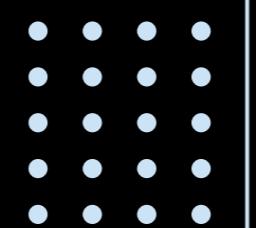

15 years of experience in the game industry, R&D director of seven game projects.

Team member introduction

KAKA WARCRAFT

Jane
CFO

4 years of experience in the cryptocurrency industry, and has participated in multiple project operations and investment consulting. Now she is the head of operations and marketing of the cryptocurrency project.

Mandy
Legal Director

Legal expert, senior partner of a first-line law firm.

Glen

Global Blockchain Market Partner.

Kevin

Blockchain advisors for global markets.

**Strive to accumulate a stable customer base in the industry,
To establish a good reputation, we are constantly exploring
and developing, thank you for your interest in us.**
